

Sponsorships apply to the local contest only and not for the entire program. Sponsorship opportunities are available for Caring for Our Watersheds' local programs through financial support, in-kind hours, or a combination of both.

All intellectual property rights in and to the name and concept of "Caring for our Watersheds" are owned by Nutrien and its subsidiaries. Nutrien will be recognized as the founder and only sponsor recognized on global material. Nutrien reserves the right to change deliverables for the best interest of the program.

***Community Partner** – Profit and non-profit organizations contribute resources to assist with the execution of the CFW program. For example, partners may deliver program information in the local area, contribute expert judges/mentors, volunteers, funds/in-kind donations, other resources. Typically, these groups support the program through multiple channels year-over-year.

If Nutrien is no longer the main funder for a contest, the tiers will adjust to recognize the contest's main sponsor.

Direct competitors to Nutrien are not eligible for sponsorship of Caring for our Watersheds, including but not limited to: Arab Potash, Bayer, CF Industries, DowDuPont, ICL, Intrepid Potash, K+S, The Mosaic Company, Sinofert, SQM, Yara International,

Please contact Nutrien about potential sponsors and community partners prior to finalizing sponsorship agreements. It is at Nutrien's discretion whether an agreement will move forward.
